UNIQUE PATENTED POST

The Design and choice of Materials address every aspect of attacks on a fencing system.

- Years of atmospheric corrosion onslaught on the materials – Rust proof materials are used to ensure the longest lasting post in the market place.
- Vandals breaking off Fixators – The Wing Protector design shrouds and protect the Fixator from the outside.
- Strong Post – Metal Alloy Outer Armour and Solid Composite Inner Core is rust proof and extremely strong.
- Anti-Grind – Inner Core is very difficult to cut with a grinder compared to Steel Posts.
- Metal Alloy Cap ensures long lasting uniform appearance and not fade and crack like plastic post caps.
